

PROJECT QUOTE — EXPLICIT PHASE ONE DELIVERY

Client: Evelyn González – Expedicargo
Prepared by: Daniel Fornica – LocalFlux AI
Date: October 29, 2025

PROJECT TITLE: Expedicargo Website – Phase One Completion

A bilingual, fully-automated logistics quote platform built to streamline client onboarding, automate quotes, and enhance operational efficiency for Expedicargo.

HIGHLIGHTED DELIVERABLES

- Full responsive website (desktop, tablet, mobile) with bilingual interface and professional blue branding.
- Advanced 20+ field Quote Form with dynamic validation, country/port autocomplete, and Supabase + Make.com integration.
- Backend setup using Supabase Edge Functions with full webhook automation and Google Sheets sync.
- Calendly consultation system for 20-min bookings with bilingual support and responsive modal UI.
- Insurance logic with conditional fields, USD input, and automated data mapping to Make.com.
- Complete technical documentation (15+ guides), test tools, and live debug dashboard.
